

## **ECS Notification for the Dutch port connection starts from today!**

**Bremen, May 2010**

Portbase announced the activation of the ECS interface today, the 4th May 2010. Thus, all container terminals, shipping companies and shipping agents in Rotterdam and Amsterdam are now connected to the ECS services.

For dbh Logistics IT AG this means that from now also the handling of export shipments leaving the EU via Dutch port can be operated directly out of our solutions Advantage Local Port Order, Advantage Customs and COMPASS.

Read more in the announcement of Portbase!

***... All terminals, shipping companies and shipping agents are now connected to the ECS Services - ECS-era really begins now!***

*All container terminals, shipping companies and shipping agents in Rotterdam and Amsterdam are connected to our ECS services. From now on, exporters and freight forwarders can submit their charge data - the ECS Notification - to Portbase. By which you can easily improve your ECS obligations of the customs authority to satisfy your customers and your service. ...*
