

## To all ALPO customers

Bremen, 31 March 2017

### RELEASE NOTES ALPO VERSION 1.34 -RELEASE CHANGE ON 04.04.2017

Dear Sir or Madam,

After the successful introduction of the ALPO release ASumA (version 1.33) on 21.03.2017, some "minor deficits" still have to be eliminated. The revisions serve to make ALPO even safer and more stable. These are the changes / corrections provided:

- **ZAPP:**  
Both GMO1 and HDS, now offer the user the possibility to transfer up to 999 positions within ZAPP orders.
- **ASumA:**  
When a new ASumA position is created, the next consecutive position number is now set as default by the system.

In case you require any further assistance please revert to our product support.

Yours faithfully,

dbh Logistics IT AG

Birgit Kreienziek  
Project manager
